PROFESSIONAL SUMMARY

B.Tech Computer Science & Engineering graduate (2025) with CCNA and practical exposure to Security Operations through a SOC Analyst internship and hands-on SOC lab. Skilled in security monitoring, SIEM/log analysis, alert triage, incident investigation and network security. Hands-on practice with Splunk, Sysmon, Windows Security Logs, Wireshark, Nmap and Kali Linux, with a strong foundation in identifying suspicious activity, correlating events, documenting findings and escalating incidents.

TECHNICAL SKILLS

Security Operations: SOC Monitoring, Alert Triage, Log Analysis, Incident Investigation, IOC Identification, MITRE ATT&CK
SIEM & Endpoint: Splunk Enterprise, Sysmon, Windows Security/Firewall Logs, Event ID 4625, Process Creation, DNS/Network Telemetry
Network Security: TCP/IP, VLAN, DNS, DHCP, VPN, Subnetting, Routing & Switching, ACLs, Wireshark, Nmap, UFW
Systems & Tools: Kali Linux, Windows 11, Ubuntu/CentOS, VMware Workstation, Cisco Packet Tracer, Bash, Python, Git, AWS basics

EXPERIENCE

SOC Analyst Intern — TechBiz Security, Security Academy | Aug 2026 – Sep 2026

- Performed security monitoring, log analysis and alert triage using SIEM and Windows security telemetry.
- Investigated authentication, process and network events and documented findings.
- Practiced incident investigation, IOC identification and escalation workflows.

PROJECTS

SOC Home Lab — Security Monitoring & Incident Investigation

- Built a controlled SOC environment using Splunk Enterprise, Sysmon, Windows Security/Firewall Logs, Kali Linux and Mailpit.
- Simulated RDP brute force, network reconnaissance, suspicious PowerShell and controlled phishing scenarios.
- Performed L1 alert triage, log correlation, IOC identification and incident documentation; mapped relevant activity to MITRE ATT&CK and practiced Close vs L2 escalation.

Network Monitoring & Firewall Configuration Lab

- Configured VLANs, inter-VLAN routing, OSPF, static routes and ACLs using Cisco Packet Tracer.
- Used Wireshark and Kali UFW to analyze ICMP/TCP/DNS/QUIC traffic and authentication/system logs.

EDUCATION

B.Tech — Computer Science & Engineering, Institute of Technology Gopeshwar, UTU | 2025 | CGPA: 6.9
Diploma — Information Technology, Govt. Polytechnic Lohaghat, Champawat | 2021 | CGPA: 7.4

CERTIFICATIONS

CCNA — Cisco Certified Network Associate | AWS Certified Cloud Practitioner | Cybersecurity Career Program — SkillEcted | Cybersecurity Fundamentals | Complete Python Bootcamp

PRACTICAL PLATFORMS

TryHackMe | GitHub | Cybersecurity / SOC Lab Practice
